

Nightingale 2.0 – Sustainability and Community

Monday 18 February 2019

Guest Speaker: *James Legge*

Learning Objectives

- How Nightingale 2.0 provides an 8.7 star NatHERS average and up to 9.0 stars on some of the apartments.
- An introduction to some alternative housing models
- An introduction to the Nightingale Model

To record the number of formal CPD points specified on this certificate, please complete the assessment below:

Name two of the European housing models discussed

Name a examples shown of each of these models

Is the percentage of people renting in Vienna: less than 20%, between 20% and 60% or greater than 60% of the population?

Is Baugruppe and housing model or a German beer?

Is the Nightingale model a Cooperative Housing Model or an Architect led Deliberative Development Model.

What are some key things to improving thermal performance and thereby star rating in NatHERS

The Nightingale model uses reductionism to remove costs from the traditional development process. Name three of these savings.

Nightingale 2.0

Sustainability and Community

This is to certify that
