

Learning in Vietnam - Housing Typologies in Ho Chi Minh City

Recorded: February 2018

Guest Speaker: Ed Haysom

Learning Objectives

- Examination of housing solutions in a tropical city and developed at the same time as Brisbane.
- Australia has opted for particular housing solutions based on its British heritage, this shows how a French heritage plus a war develop a different solution.
- Learning from Vietnam's mistakes in dealing with population growth and housing density in looking at an alternative to present high-rise solutions

In order to record formal CPD for this webinar, please complete the assessment below and maintain it with your CPD records:

1. What was the significant factor in creating the pattern of Ho Chi Minh City
2. Why do you think the Vietnamese persisted with French cultural references after they had driven the French out?
3. What impact has the high-rise typology made on the Vietnamese cities?
4. What has spurred it, what has slowed it?
5. Why was the medium rise model abandoned?
6. Which city does Vietnam see as its model of future development?
7. What role did Doi Moi play in the development of the high rise model?
